EXPERIENCE

Gilah Global Limited

Fullstack Developer

Lagos, Nigeria

October 2022 - October 2023

- Built Circo, a video sharing web application, with it's admin panel, and BuyToken, a utility purchase web application
- Created, designed, and implemented layouts for new and existing web pages
- Architected brand-new software solutions to fulfill project requirements
- Integrated external software libraries and APIs into existing projects
- Collaborated on projects with team members using GitHub
- Created and maintained database designs for data storage and processing
- Worked on Frontend and Backend aspects of applications.

CourseBay

Frontend Developer

Lagos, Nigeria

November 2023 - December 2023

- Built Publeesh, a platform which brings people together and empowers users to stay informed.
- Conducted frontend automated testing for web applications
- Maintained legacy code written by other developers, including bug fixes
- Collaborated on projects with team members using GitHub
- Wrote technical documentations

PROJECTS

Circo

- Project built at Gilah Global
- Developed the video sharing web application where users upload awesome contents, host live events, earn by people subscribing to their channels, share, like, and comment, amongst other amazing features.
- Has social media authentications incorporated in it and Flutterwave integrated for funding Channel wallet
- Used Next.js, Node.js, TypeScript, MongoDB, Redux-Toolkit, Chakra UI, Mux, Cloudinary to develop it

BuyToken

- Project built at Gilah Global
- Built the web application for purchasing utilities like Electricity, Airtime, Data, and Cable TV.
- Has SmartSpend feature to manage your monthly spendings
- Used Next.js, Node.js, TypeScript, Redux-Toolkit, MongoDB, Chakra UI to develop it

Publeesh

- Project built at CourseBay
- Developed the web application which brings people together, empowering users to stay informed, engaged, and ahead of the curve through joining spaces and purchasing products.
- Has two applications incorporated into one: Creator's portal for community and product owners and User's portal for members and customers.
- Used Next.js, TypeScript, React-Hook-Form, Radix-UI, TailwindCSS to develop it

CERTIFICATIONS

- Certification in Python Programming by NIIT - [View](#)
- Diploma in Fullstack Web Development by NIIT - [View](#)
