ABOUT ME

- 18 years old creative MERN Stack Developer with 1.2 years designing useful, approachable user interfaces using **Reactjs** and **Nextjs**, and 6 months creating backend services, using **Nodejs**. Knowledgeable on many aspects of design best practices and emerging UI development techniques.

FEW OF MY WORKS

TIKTIK

Video sharing social media application- <https://tiktik-ikm.vercel.app>

- Social-media application, like a TikTok clone, where user can share videos and get to meet people.
- Implemented features that enables user authentication, videos upload, user accounts or posts search, and user profile management.
- Created the Frontend and Backend with **Next.js**, while using **Typescript** as the programming language and **MongoDb** as the database, and deployed the service on **Vercel**.

SHAREME

Image sharing social media application- <https://sharemeikm.netlify.app>

- Social media application where you share images of memories, iconic places, and so on.
- Implemented features such as user profiles with cover photos, image grids using Mansory Layout, and post save and image download.
- Created the Frontend with **Reactjs**, which is powered by an external API and database service (**Sanity.io**), and deployed the application on **Netlify**

STORIE

E-commerce store- <https://storie.vercel.app>

- Online store where users can view products, add products to carts, and make payments online.
- Implemented features that enable product listing, checkout, and online payment.
- Online marketing site built using **Next.js** for the Frontend, external database and API service, and **Stripe** for payment processing.

PAPR

News blog site- <https://blogikm.netlify.app>

- Standard news blog site for publishing news and informations.
- Implemented features such as news search and filtering, light and dark modes, and beautiful animations
- Frontend, Backend, and database built with **Reactjs**, **Nodejs**, and **MongoDb** respectively, with application and backend services deployed on **Netlify** and **Heroku** respectively.
